## "BAUM & ZEIT" – A MAGICAL PLACE ...

There is hardly any other place where nature and history merge in such a magical manner as in the "Baum & Zeit" discovery area with the Tree Top Walk in its centre.

The Tree Top Walk, which is accessible for wheel-chair users, starts at the 40-metre-tall viewing tower and it is easily reachable with a lift, just like the 36-metre-tall viewing platform. It traverses the picturesque ruin of the Alpine house on whose roof a forest has been growing for 70 years, enabling visitors to get a fantastic view of this scenery.

Along the path, several information panels, which provide information about the history and the tree population of the forest, will take the visitors onto an exciting journey through "Baum & Zeit".

### Tip:

To enjoy your stay with us to the fullest, you should plan to spend at least 3 to 4 hours at the Tree Top Walk for each of the respective modules. And a hint for gourmets: Beelitz is THE asparagus growing area near Berlin!
